

SPECIFICATION

Prescriber Text DucoWall Direct Clip

Fabrication:	Duco 'Ventilation & Sun Control'
Type:	DucoWall Direct Clip
Description:	DucoWall Direct Clip is a continuous louvre wall, manufactured from extruded aluminium blades which are directly "clicked" onto the aluminium mullion. The particular form of the blade was especially designed to be used as either an "S" or a "Z" blade.
Fixation:	The continuous louvre walls DucoWall Direct Clip can be fitted to an existing construction or be used as a wall ventilation system taking the place of the wall itself (non load-bearing construction).
Material:	All profiles are manufactured from aluminium: Al Mg Si 0,5 Standard colours: SAA (15-20 µm) All RAL colours are available, including Syntha Pulvin
Dimensions:	1. Specific projects: all dimensions are available (width x height in mm). 2. Bar lengths: 6.000 mm.
Type of blade	35 S or Z
Type of Mullion:	40/47
Blade height:	90 mm
Pitch:	75 mm
